**RE: Reminder – Money Market Reform Addendum**

Dear Business Partners:

As a reminder to the Multiple Fund Announcements Addendum communicated on November 23, 2015, Oppenheimer money market funds are being reformed. The Money Market Reform table provided below includes the projected dates these changes will be effective.

To act in the best interest of our clients, while also ensuring compliance with the money market reform rules that become effective in October 2016, OppenheimerFunds' money market offerings will transition to government money market funds. Government money market funds are required to hold at least 99.5% of their assets in cash, government securities, and repurchase agreements that are collateralized fully, are permitted to maintain a stable net asset value, and are not required to impose liquidity fees or redemption gates. The Funds' names will change as shown in following table, on or about the applicable effective dates:

Following extensive consultation with our clients, the Board agreed that this decision was in the best interests of our shareholders. Adapting the Funds to the new policy did not require shareholders to vote; however, they were notified of the changes through prospectus supplements in November 2015.
