

What you need to know about Cost Basis Reports

When Axos Advisor Services receives the cost basis for transferred assets for taxable accounts from a transferring custodian, we update the cost basis. If no cost basis is received for assets transferred to Axos Advisor Services, the position is reported as a non-covered security and no cost basis is reported to the IRS. In this case, the account owner is responsible for providing the cost basis information to the IRS when filing his or her tax return.

There are several standard reports available on Liberty related to cost basis, including:

Cost Basis Not Received—Transfers In: To help you identify any positions transferred to Axos Advisor Services for which we have not received cost basis data, you can run the “Cost Basis Not Received—Transfers In” report. This report identifies all taxable accounts that have assets with a cost basis of zero.

Cost basis reports include:

- Cost Basis - Open Tax Lots
- Cost Basis for Transfers Out
- Cost Basis Not Recd - Transfers In

Reminders:

- The above reports are delivered in a CSV format.
- Current year cost basis information must be provided to Axos Advisor Services by December 31.

If you have any questions regarding the cost basis reporting, please contact your Client Service Advocate.

Axos Advisor Services does not provide tax advice, and investors should always consult their own tax advisor regarding their personal circumstances before taking any action that may have tax consequences.

Investment Products: Not FDIC Insured - No Bank Guarantee - May Lose Value.
