

Ensure Use of Current Liberty URL and Mobile App

In 2015, the Liberty URL was updated to <https://app.trustamerica.com/liberty/desktop> - anyone using the prior URL has been redirected to the updated version.

Similarly, background updates have also been incorporated to your TCA Mobile App in Google Play and Apple Store.

Effective **September 21, 2017**, prior versions will no longer redirect users. RIAs, Reps and account owners are encouraged to ensure the most current Liberty URL site is bookmarked and the most current version of the mobile app is downloaded

Let your relationship manager know if you have questions.
