

**Introducing Mediant  
Communications to vote  
proxies and make reorg  
elections**

Axos Advisor Services is excited to announce that we are partnering with Mediant Communications to provide you with everything you need to vote proxies, make reorg elections, and see communications on behalf of your clients. To get set up in the system, we will need to gather the below information from your firm. Please provide this information for all individuals who will be responsible for, and have authority to do, these tasks on behalf of your clients. The contact information can be for individuals or can be a group email. Once all is set up, our Mediant relationship manager, Lindsey Semptimphelter, will reach out with login credentials. Information on training webinars will be shared later this month.

To ensure a smooth transition to Mediant, please provide information by no later than March 21.

For each user, please provide the following information:

Name  
Email  
Phone

Please provide this information to your Client Service Advocate.

Mediant Communications will hold 2 webinars during the last week of March – stay tuned for webinar invitations where we'll share information about this exciting transition.
