

MIC WEALTH MANAGER

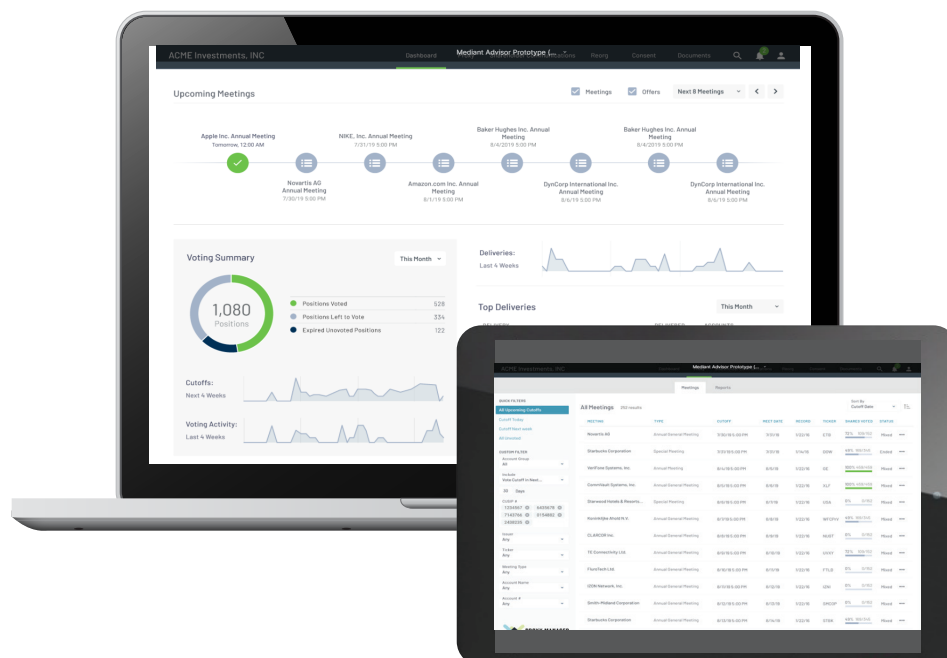

Save time and enhance shareholders' experience by keeping them informed and engaged.

MANUAL PROCESSES, REPETITIVE TASKS, LOGGING ONTO MULTIPLE APPLICATIONS, and monitoring time-sensitive events impede advisors' time with clients. MIC Wealth Manager is a comprehensive platform that saves advisors time and enables them to better serve their clients. Advisors use the platform to efficiently vote proxies, review shareholder communications their clients receive and make reorg elections online. A dashboard spotlights critical information and time-sensitive activities such as:

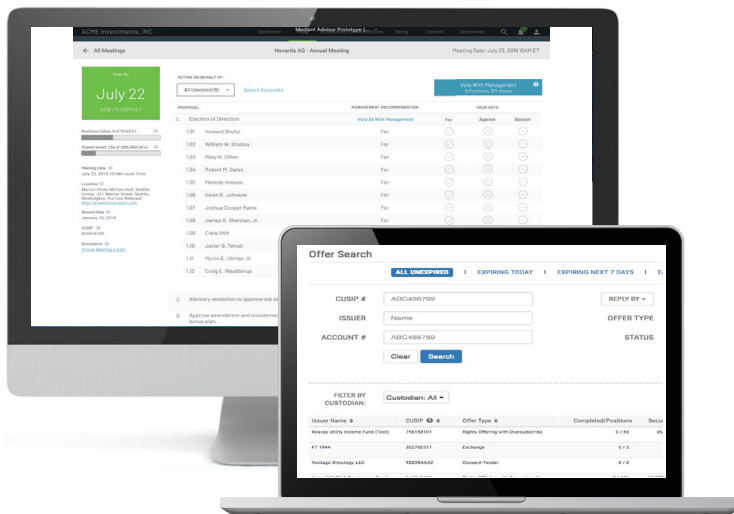

- The number of positions that must be voted within the next four weeks
- Upcoming meetings
- Shareholder communications that have been received by the most accounts

Providing MIC Wealth Manager to your advisors makes them more productive and promotes your brand – solidifying your relationship with them. Plus, brokers can monitor all their post-sale distributions, reorg elections and proxy campaigns – as well as their advisors' activity – via MIC Operations, our market proven technology.
