

Scarecrow Trading

Added to Money Manager X-Change (MMX)

Outsource all or a portion of your money management by leveraging our Money Manager X-Change Program (MMX). Designed to allow you access to select high-quality investment managers and create efficiencies in your business. We have recently added the strategies of Scarecrow Trading to the program, further broadening our offering.

Scarecrow Trading, founded by Leonard Fox in 2003, employs active money management strategies in an effort to outperform the S&P 500 Index. Their strategies are third-party verified at Theta Research and comply with GIPS standards. Utilizing fully mechanical systems, they conduct daily analyses to optimize investment allocations.

We are excited to introduce two of their popular strategies on the MMX platform.

- Crow Chaser, an Equity Long/Inverse/Cash program aiming for absolute returns.
- High 5, an Equity Long/Inverse/Cash composite utilizing five tactical programs.

For more information on the MMX program, please contact your Client Service Advocate.
