

TurboTax "Invalid Transaction ID" Error Resolved

As you may already be aware some investors experienced challenges when importing into Turbo Tax. Technical teams at TurboTax and TCA have collaboratively resolved the "Invalid Transaction ID" error when trying to import into TurboTax from Liberty/Trust Company of America.

The TurboTax import issue was resolved on March 3 and account owners have since confirmed success with their imports.

We appreciate everyone's patience as we worked with TurboTax to resolve the situation.
